Practical - 4

Practical Title: JavaScript DOM Manipulation, Event Handling, and UI Interactivity

Add dynamic UI components such as collapsible FAQ, modal popup, image/content slider, notification banner, hamburger menu, and light/dark theme switcher using JavaScript.

S. Theory

1. How are DOM elements selected and modified?

Answer: DOM elements are selected using methods like getElementById();

2. Are event listeners attached correctly?

Answer: Yes, event listeners are attached

3. Is localStorage used for remembering theme choice?

Answer: Yes

4. Does interactivity improve usability without breaking accessibility?

Answer: Yes
